

Converse II

Converse II is a program for students 24 years of age and older. We serve adult students who are returning to university to begin or complete undergraduate degrees, earn second undergraduate degrees, or enrich themselves personally or professionally. Outstanding features of the program are a simplified application procedure, reduced fees, no SAT or entrance test scores required, career counseling, and individualized academic advisement. Academic requirements for Converse II students are identical to those of traditional students except for the completion of the Health and Wellness + Activity requirement of the GEP.
