

MTH 497 : HONORS THESIS IN MATHEMATICS

This course is for qualified students pursuing honors in mathematics. Students perform independent research and write a thesis under the direction of a mathematics faculty member. Honors Thesis in mathematics demonstrates the student's ability to conduct systematic research with the intention of producing a research paper.

3.000

MTH 210 or its equivalent, senior class standing, approval by the department, permission of the instructor (adviser), and other prerequisites as outlined in the Nisbet Honors Guidelines.
