

## Secondary Education Minor

The program in secondary education gives teacher candidates of grades 9–12 professional competence and allows them to meet varying certification requirements. A student may complete secondary education as a minor by taking a sequence of 30 (32 for science teachers) hours of approved courses in education and psychology. The secondary education teacher candidate must major in an appropriate academic area corresponding with the secondary school curriculum in English or for prospective social studies teacher candidates, either politics or history. Secondary education minors must complete the academic major requirements, all admission requirements for the Teacher Education Program, and the minor in education. Students interested in secondary teaching should declare their minor and meet with an education advisor in the Department of Education during their sophomore year. They must select a teaching area and follow a prescribed sequence of courses necessary for graduation and teacher certification. All teacher candidates pursuing certification in secondary education must meet with the designated minor adviser in the pertinent certification area. Teacher candidates should verify the test code numbers of the South Carolina requirement PRAXIS requirements because the codes are subject to change.
